

Have You Achieved Gold Status?

Introducing the Gold RPE

Forestadent USA is setting the standard for which all other expansion screws are compared.

Quality System

Certified by DQS acc.to
DIN EN ISO 9001 : 2000
DIN EN ISO 13485 : 2003
Annex II of Directive
93/42/EEC
Reg. No. 55387

Torque Testing device

- The gold spindle provides a smooth and reliable torque.
- Each screw has 24 carat gold plating on the stainless steel spindle. In addition, each expansion screw is statistically controlled in our torque testing device.
- Available in both 10mm and 12mm of expansion.
- Will not come apart when fully expanded.
- Torque of screw is consistent through-out full expansion.
- Will not spin or come loose during treatment.
- Prebent arms allow the screw to fit into narrow palates.

Part Numbers:

10mm #167G1326

12mm #167G1539
